**Washington D.C.**
Experience all the excitement the nation’s capital has to offer!

As the Federal Capital of the United States, Washington D.C. contains an incredible array of attractions that aren’t found elsewhere in the country. These are a series of memorials and monuments, such as the Vietnam Veterans Memorial, the Lincoln Memorial, and the Washington Monument. While the Smithsonian Institution has programs and facilities throughout the nation, Washington is where 16 of its museums are located. National museums in D.C. include the National Air and Space Museum, the National Building Museum, the National Gallery of Art, and the National Postal Museum, to name a few. Other prominent sights are the homes of the U.S. President.
