COURSE DESCRIPTION
This course provides a unique opportunity to receive 14.5 hours of exclusive instruction from Dr. David Stoller and 1.5 additional hours of special instruction from Dr. Ming Huang. Dr. David Stoller is the author of the preeminent textbooks on orthopedic imaging.

COURSE OBJECTIVES
Upon completion of the program, participants should be able to:
• Develop a shoulder checklist method including interpretation techniques for the rotator cuff and interval, biceps labral complex, inferior glenohumeral ligament complex, and capsular structures including the anterior band.
• Identify glenoid wear patterns in multidirectional instability, microinstability, anterior and posterior instability.
• Develop a knee checklist with foolproof ACL diagnosis and techniques for prospective diagnosis of all types of meniscal tears, differentiating circumferential surface from cross sectional tear patterns.
• Introduce strategies in the evaluation of the cruciate ligaments, posterior lateral instability, and articular cartilage.
• Develop a hip checklist and distinguish between FAI and DDH pathology.
• Develop an ankle checklist including articulations, ligaments, tendons, and articular cartilage.
• Describe all types of soft tissue ankle impingement and posterior lateral ligamentous and subtalar joint anatomy.
• Develop a wrist checklist with the ability to differentiate epicondylitis from instability patterns.
• Develop posterior lateral instability and the Circle of Horii.

TARGET AUDIENCE
• Board certified general radiologists and trainees interested in musculoskeletal imaging
• Orthopedic Surgeons
• Radiology fellows in training
• Radiologist Assistants and MRI Technologists
• Practicing physicians in sports medicine and related clinical subspecialties who desire to familiarize themselves with the current role of imaging in patient evaluation
• Allied health care professionals who desire to have an update on the state of current imaging as an aid to patient management for diseases of the musculoskeletal system

ACCREDITATION
This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Postgraduate Institute for Medicine and CME Science. The Postgraduate Institute for Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation
The Postgraduate Institute for Medicine designates this live activity for a maximum of 16.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure of Conflicts of Interest
Postgraduate Institute for Medicine (PIM) requires instructors, planners, managers and other individuals who are in a position to control the content of this activity to disclose any real or apparent conflict of interest they may have as related to the content of this activity. All identified conflicts of interest are thoroughly vetted by PIM for fair balance, scientific objectivity of studies mentioned in the materials or used as the basis for content, and appropriateness of patient care recommendations.
PROGRAM SCHEDULE

Monday, APRIL 16 | 2012

8:00-8:10 AM — Welcome and Course Introduction - David W. Stoller, M.D.
8:10-8:20 AM — Registration, Exhibits and Light Breakfast
8:20-9:00 AM — MRI of the Ankle Part 1: Sagittal, Axial and Coronal Checklist - David W. Stoller, M.D.
9:00-9:55 AM — MRI of the Hip Part 1:Coronal, Sagittal and Axial Checklist - David W. Stoller, M.D.
9:55-10:20 AM — Coffee and Tea Break
10:20-11:05 AM — MRI of the Hip Part 2-1: Femoroacetabular Impingement (FAI) and Muscle/Osseous Trauma - David W. Stoller, M.D.
11:05-12:05 PM — Welcome Address — Ming Huang, M.D.
12:05-12:20 PM — Registration, Exhibits and Light Breakfast
12:20-1:30 PM — MRI of the Shoulder Part 1: Coronal, Sagittal and Axial Checklist - David W. Stoller, M.D.
1:30-2:10 PM — Questions and Answers
2:10-3:10 PM — Coffee and Tea Break
3:15-3:30 PM — MRI of the Shoulder Part 2: Glenohumeral Labral Complex and SLAP Tears - David W. Stoller, M.D.
3:30-4:20 PM — MRI of the Shoulder Part 2: Glenohumeral Labral Complex and SLAP Tears - David W. Stoller, M.D.
4:20-5:00 PM — MRI of the Shoulder Part 2: Glenohumeral Labral Complex and SLAP Tears - David W. Stoller, M.D.
5:00-5:40 PM — MRI of the Shoulder Part 2: Glenohumeral Labral Complex and SLAP Tears - David W. Stoller, M.D.

Tuesday, APRIL 17 | 2012

7:30-8:00 AM — Registration, Exhibits and Light Breakfast
8:00-8:10 AM — MRI of the Ankle Part 1: Sagittal, Axial and Coronal Checklist - David W. Stoller, M.D.
8:10-9:00 AM — MRI of the Wrist Part 1: Coronal, Sagittal and Axial Checklist - David W. Stoller, M.D.
9:00-9:55 AM — MRI of the Ankle Part 2: Anatomy and Tendon & Ligament Pathology - David W. Stoller, M.D.
9:55-10:20 AM — Coffee and Tea Break
10:20-11:05 AM — MRI of the Elbow Part 1: Coronal, Sagittal and Axial Checklist - David W. Stoller, M.D.
11:05-12:05 PM — MRI of the Elbow Part 2: Tendinopathy & Instability including Epicondylitis & Collateral - David W. Stoller, M.D.
12:05-12:20 PM — Registration, Exhibits and Light Breakfast
12:20-1:30 PM — MRI of the Shoulder Part 2: Glenohumeral Labral Complex and SLAP Tears - David W. Stoller, M.D.
1:30-2:10 PM — Questions and Answers
2:10-3:10 PM — Coffee and Tea Break
3:15-3:30 PM — MRI of the Shoulder Part 3: Normal Anatomy including Intrinsic and Extrinsic Ligaments, Distal Radioulnar Joint (DRUJ), Rotator Interval Pathology - David W. Stoller, M.D.
3:30-4:20 PM — MRI of the Shoulder Part 3: Normal Anatomy including Intrinsic and Extrinsic Ligaments, Distal Radioulnar Joint (DRUJ), Rotator Interval Pathology - David W. Stoller, M.D.
4:20-5:00 PM — MRI of the Shoulder Part 3: Normal Anatomy including Intrinsic and Extrinsic Ligaments, Distal Radioulnar Joint (DRUJ), Rotator Interval Pathology - David W. Stoller, M.D.
5:00-5:40 PM — MRI of the Shoulder Part 3: Normal Anatomy including Intrinsic and Extrinsic Ligaments, Distal Radioulnar Joint (DRUJ), Rotator Interval Pathology - David W. Stoller, M.D.

FACULTY

David W. Stoller, M.D., F.A.C.R.
Director, National Orthopaedics Imaging Associates and MRI at California Pacific Medical Center, San Francisco, CA
Adjunct Professor of Radiology, Johns Hopkins University School of Medicine, Baltimore, MD

Ming Huang, M.D.
Clinical Assistant Professor
State University of New York, Stony Brook

Stoller Comprehensive Musculoskeletal Imaging
April 16-17, 2012
Wynn Macau

ACCOMMODATIONS

The Wynn Macau has been awarded top honors from Forbes, Mobil and Michelin and is the undisputed leader in quality and luxury on Macau. Each room features over 56 square meters of floor space, complete with floor to ceiling windows offering dramatic views, separate sitting area, and all the amenities and luxuries you would expect.

BEST HOTEL IN MACAU AT THE BEST NEGOTIATED RATE

A special rate of HKD1,600.00 (approx. $200 US) per room per night for a Deluxe Room has been reserved for our conference participants. This rate is for single or double occupancy and is subject to tax. To receive this special rate, please make your reservation no later than March 14, 2012. Rooms at this special rate have been reserved for attendees on a first-come, first-served basis and may sell out before the cut-off date. Don’t be disappointed by waiting too long; reserve your room now online at www.WynnMacau.com and enter the special attendee code 9042, or phone Wynn Macau Room Reservations Department at (853) 8986-9966. Please identify yourself as a participant at the Stoller conference, group code 120415SCME, attendee code 9042. For more information on the Wynn Macau Resort, please visit their website at http://www.WynnMacau.com.

TUITION AND REGISTRATION

Limited Registration

for this unique instruction by Dr. Stoller (please check box):

❑ Practicing Physicians – $995.00/person
❑ Residents, Fellows, RRA’s, RPAs, RTS, Allied Health Care – $795.00/person

Fellows and Residents are required to submit proof of fellowship/residency. This can be faxed to +1-650-887-2113 after enrolling online and should be received before the first day of the course.

Refunds: Full refunds, less a $100 administrative service charge, will be made to those providing written notification of withdrawal with at least 30 days notice. After that date, no refunds will be given.

On Site: All lectures will be held in the meeting rooms of Wynn Macau. Registration and check-in will begin at 7:30 a.m. on Thursday, April 16, 2012.

Americans with Disabilities Act: Event staff will be glad to assist you with any special needs (ie, physical, dietary, etc). Please contact CME Science prior to the live event at info@cmescience.com.
COURSE DESCRIPTION
This course provides a unique opportunity to receive 14.5 hours of exclusive instruction from Dr. David Stoller and 1.5 additional hours of special instruction from Dr. Ming Huang. Dr. David Stoller is the author of the preeminent textbooks on orthopedic imaging.

COURSE OBJECTIVES
Upon completion of the program, participants should be able to:
- Develop a shoulder checklist method including interpretation techniques for the rotator cuff and anterior, posterior instability.
- Identify glenoid wear patterns in multidirectional instability, microinstability, anterior and posterior instability.
- Develop a knee checklist with foolproof ACL diagnosis and techniques for prospective diagnosis of all types of meniscal tears, differentiating circumferential surface from cross-sectional tear patterns.
- Introduce approaches for accurate acetabular-labral tear identification. Introduce orthopedic articular cartilage classification for the acetabular roof.
- Develop an ankle checklist including articulations, tendons and articular cartilage.
- Describe all types of soft tissue ankle impingement and posterior ligacons and subtalar joint anatomy.
- Develop a wrist checklist with emphasis on the intrinsic and extrinsic ligaments and the triangular fibrocartilage.
- Explain the relevance of perilunate instability, SLAC and triscaphe arthritis.
- Develop an elbow checklist with the ability to differentiate epicondylitis from instability patterns.
- Describe posterior lateral instability and the Circle of Heri.

TARGET AUDIENCE
- Board certified general radiologists and trainees interested in musculoskeletal imaging
- Orthopedic Surgeons
- Radiology fellows in training
- Radiologist Assistants and MRI Technologists
- Practicing physicians in sports medicine and related clinical subspecialties who desire to familiarize themselves with the current role of imaging in patient evaluation.
- Allied health care professionals who desire to have an update on the state of current imaging as an aid to patient management for diseases of the musculoskeletal system
