Letter of Welcome

EACR - 22 From Basic Research to Personalised Cancer Treatment

It is a great pleasure to announce that the 22nd Biennial EACR Congress will be held in Barcelona 7 -10 July 2012.

I am delighted that the Congress is actively supported by the Spanish Association for Cancer Research (ASEICA) and to be holding the Congress in one of Europe’s most vibrant cities, a city with a remarkable reputation for cancer research and cancer care.

EACR-22 will provide a forum for discussion between scientists working in all fields of cancer research. It will focus on the latest developments in basic and discovery driven translational research, through to personalised cancer treatment.

EACR congresses are well known for providing an exciting programme that is highly valued by participants. EACR-22 in Barcelona will be no exception. The Congress will offer outstanding plenary lectures complemented by focused symposia across eighteen topics. There will be opportunities for participants to attend ‘Educational Sessions’ as well as invitations to ‘Meet the Expert’. Posters will be displayed for review and ‘defence’ throughout the Congress in the Exhibition Hall and all participants will be invited to assist in their evaluation.

I hope that you will return from the Congress inspired by colleagues from around the world and that you will have made new friends and scientific contacts that will support you in your essential work. I also hope that the Congress will live long in the memory, combined with the experience of Barcelona and its unique atmosphere.

Julio E. Celis
Congress Chair
