The European Institute for Biomedical Imaging Research (EIBIR), with its headquarters in Vienna, is looking for a

**European Research Manager (f/m)**

for the setup and the coordination of a large-scale project in the biomedical science field.

Are you experienced in research management on a European/international level and familiar with medical/science topics?

Are you used to working independently and pro-actively, and already experienced in project management on a European/international level?

To supplement our team we are looking for a coordinator of a large-scale infrastructure project, which is on the roadmap of the European Strategy Forum on Research Infrastructures (ESFRI). Duration of the project: 2009 until 2014.

Working language is English. For that reason, excellent written and oral English knowledge is a must.

**Your responsibilities:**

- Setup of the preparatory phase of the project
- Liaison and communication on a political and scientific level
- Lobbying for the project in European research ministries with the aim of it being included in the national research programmes
- Writing and coordination of the detailed project proposal
- Coordination of the involved leading scientists
- Organisation of agendas, meetings and workshops
- Marketing/public relations/website support

**Our requirements:**

- University degree in medicine, applied science, biology etc. is beneficial
- Practical experience in research management and research planning
- Profound knowledge of European research infrastructure and research politics
- Experience in project management and in the accomplishment of research projects on an international/European level
- Experience in fundraising for large-scale research projects and in networking
- Familiarity with public relations is beneficial
- Excellent English knowledge, written and oral, additional languages are an advantage
- Good MS Office user knowledge (Word, Excel, Power Point)
- Willingness to work in a team
- Ability to lead projects independently and pro-actively
- Willingness to travel within the European Union
We are looking for a committed, enthusiastic person with high social competence.

We offer a challenging job in a dynamic team environment. Become a part of our team!

Please send your application, preferably in English, including a photo and your salary requirements to Ms. Alexandra Koch at job@eibir.org

We look forward to hearing from you!
